Objective

A recent ICT graduate with a foundation in software development, database management, and web technologies, eager to apply classroom knowledge in a real-world setting, contribute meaningfully to a team, and grow through hands-on experience and professional mentorship.

Education

Bachelor of Computer Application (85.1%) 2022 - 2025
Assam Downtown University,
India

12th (68.50%) 2021
Gongzim Ugyen Dorji Central
School, Haa

10th
Chundu Armed Forces Public (63.40%) 2019
School, Haa

Experience

Web Developer (Intern) June 24th - July 24th, 2024
Karma Group

- ✓ Contributed to building a website for Perfect Group using WordPress.
- ✓ Explored and learned WordPress from scratch, despite having no prior experience.
- ✓ Gained hands-on exposure to website design, theme customization, and plugin integration.
- ✓ Collaborated with the team in an attempt to deploy the project, which enhanced my understanding of deployment challenges and problem-solving in real-world projects.

Projects

Bhutan Hotel Booking System (2025)

I worked on the backend of a Bhutan Hotel Booking System using the MERN stack, developing APIs, managing the database, and ensuring secure bookings. I also integrated payments and a chat assistant, gaining experience in backend development and teamwork.

Web Development using WordPress (2024)

Developed a website using WordPress during an internship
